

EDC's Leadership Spheres

Governors Council

The Governors Council is the most influential source of private sector leadership focused on securing new investment and addressing major economic competitiveness issues. Council participation is by invitation only, requires a \$100,000 per year investment, and is called upon when major opportunities and issues demand influence.

Strategic Roundtable

The Strategic Roundtable taps into the collective experience and influence of the region's retired executives and former public officials. The Roundtable aligns these civic entrepreneurs around opportunities to improve San Diego. It is a body of influence, not a committee or a board. Members contribute through EDC's 501c3 foundation.
