STATEMENT REGARDING APPLE IN SAN DIEGO

SAN DIEGO (December 13, 2018) – In response to Apple expanding its operation to include a location in San Diego, EDC has released the following statement:

“Joining an influx of other large tech firms like Amazon, Google and Walmart Labs, Apple is setting up a significant operation in San Diego to take advantage of the region’s STEM talent. We look forward to building a stronger working relationship with the company, and helping it – and its 1,000 employees – grow in an already thriving tech market in San Diego.”

- Mark Cafferty, president & CEO, San Diego Regional EDC
