Advancing San Diego

Verified Program application guide

Business—2024

The following application can be completed in parts. The first two sections are required, then you can use the table of contents to skip ahead or go back to sections. The table of contents is available throughout to application by clicking the three lines in the top left corner of the screen. You can use this application guide to review all the questions included in the application.

After the two required sections, the remaining sections are optional, but more complete sections make for a stronger application. Your responses will be saved, and you can return to review or edit responses **by using your unique link**. Once you submit the application (at the very end) you will no longer be able to edit your responses. You will see another warning before you click submit.

10. Gender representation (must add up to 100%)
11. Race and ethnicity representation (must add up to 100%)
12. Local vs non-local (must add up to 100%)

Diversity Equity & Inclusion

For the following questions, we are only looking for a list. Applicants that are invited to present to employers will have the opportunity to elaborate further on these efforts.

Advancing San Diego's mission is to improve access to high-wage, high-demand occupations for all San Diegans. Efforts around diversity, equity, and inclusion as well as efforts to reach and serve San Diegans are looked upon favorably for verification status. These questions are not required to complete the application, but the more questions that are answered the stronger the application will be considered.

1. List any other institutional or programmatic opportunities that make the learning environment accessible to a wider variety of populations. Examples might include full-time workers, parents, people with physical disabilities, people with learning challenges, unhoused people, and more.

2. List any institutional or programmatic efforts to recruit local residents for enrollment and workforce training. This can include relationships with K-12 institutions, other post-secondary institutions, the military, and more. Again, we are only looking for a list.

Hard Skills

The following sections will ask about the program's ability to teach the technical skills needed for entry-level business talent. None of these questions are required, however the more information that is provided the stronger the application will be. Applicants are encouraged to pay careful attention to the skills relevant to the roles selected at the beginning. Relevant roles are listed below each skill definition. For example, if you indicated that your program prepares students for a role in entry-level IT support, responses to skills related to IT support roles will be evaluated more closely.

1. List any courses or modules within the program that include <skill> as a learning outcome.
2. Are any of the courses or modules listed above required for program completion?
3. Upload the syllabus for one required course that includes <skill> as a learning outcome.

4. Check the box for each true statement regarding business related certificates. For example, if the statement *"The program applying for verification prepares students to take the Salesforce Administrator certification exam."* is true, check the top left box:

Certificate:	prepares students to take the exam.	provides practice exams for students.	pays for the student to take the exam.
Certified Management Accountant license			
Certified Internal Auditor license			
Certified Public Accountant license			
Customer relationship management software certification (Salesforce, Zoho, Hubspot)			
Project management software certification (Asana, Trello, Jira, Monday.com)			
Accounting software certification (Quickbooks, Freshbooks, Sage, Xero)			

5. Which project management style(s) do students primarily learn/use?
6. Which software system(s) do students primarily learn/use?
7. What other technical skill(s) do students primarily learn/use?

Employability Skills

The following sections will ask about the program's ability to teach the employability skills (also known as 21st century skills or soft skills) needed for entry-level business talent. This question is not required, however the more information that is provided the stronger the application will be. These skills have been selected by employers for their importance in business roles. Applicants are encouraged to respond.

1. Please review the following employability skills and provide a brief overview of how students are refining these skills throughout this program (project work, capstones, group projects, etc.)

    Employability skills: Collaboration and accountability within teams, customer relationship management, problem solving, and adaptability.

Industry Engagement

1. Select all forms of industry engagement and work-based learning that are embedded in the program:
   - Internships
   - Apprenticeships
   - Co-ops
   - Industry inspired/provided case studies or projects
   - Industry presentations
   - Industry related field trips
   - Other
   - None
2. How can employers engage in this program to recruit students or provide work-based learning experiences?
